- Bach Khoa, Hai Ba Trung District, Hanoi

WORK EXPERIENCE

NAL Vietnam JSC

5/2022 - 10/2022

FRONT-END ENGINEER

- Worked on three projects: RON, K-Transport, and KWMC Mail.
- Participate in the development and suggestion of the company's internal project.
- Worked with the Back-end team to define APIs and the response data.
- Maintain and optimize source code.

PROJECTS

RON

7/2022 - 10/2022

POSITION: REACTJS DEVELOPER

- Design UI.
- Build reusable components.
- Build a code base for the project.
- Optimize duplicate code from 10% to 0.3%.
- Write test cases for utility functions.

TECHNOLOGY DESCRIPTION

- ReactJS, React Hook Form, React Router, React i18next, Axios, SASS, ESLint.

K-Transport

9/2022 - 10/2022

POSITION: REACTTS DEVELOPER

- Build components follow the Figma design.
- Optimize and fix bugs.

TECHNOLOGY DESCRIPTION

- ReactTS, Styled Component.

KWMC Mail

6/2022 - 7/2022

POSITION: REACTJS DEVELOPER

- Build new features on existing components.
- Fix bugs.

TECHNOLOGY DESCRIPTION

- ReactJS, Ant Design, Redux.

OBJECTIVE

- I have six months of experience as a ReactJS developer and I am seeking a position in this role to contribute my knowledge to solving the company's problems.
- *Short-term goals:* Continuously improve my ReactJS skills by exploring advanced concepts such as custom hooks, and performance optimization.
- *Long-term goals:* Become a skilled Front-end developer specializing in ReactJS, mastering advanced concepts, and exploring new technologies.

SKILLS

Technical skills

- JavaScript, TypeScript.
- Axios, React Hook Form, React Router, Redux, SASS, Styled Component, Git.
- Troubleshoot and debug.
- Can write and read English documentation.

Soft skills

- Good at teamwork and problems solving.
- Willing to learn new technologies.

EDUCATION

8/2018 - 4/2023

ELECTRONICS & TELECOMMUNICATION

Posts and Telecommunications Institute of Technology

Graduated
