Le Chi Kien – React Developer

+84 396 636 667 / lechikien123@gmail.com / https://kienlc.vercel.app

Summary

I have six months of experience as a ReactJS developer and I am seeking a position in this role to contribute my knowledge to solving the company's problems.

Experience

React Developer
NAL Vietnam JSC | *May 2022 - Oct 2022*

- Participate in the development and suggestion of the company's internal project.
- Build and develop the skeleton code of the internal project, and get the superior's approval for deployment in Angular and Vue.
- Build reusable components.
- Create necessary test cases for the projects.
- Exchange ideas with the Back-End team to define APIs and the response data.
- Optimize code quality. Decrease duplicate code from 10% to 0.3%.
